

HARTON

MANUFACTURERS OF PRE-FABRICATED PLUMBING UNITS
AND BOOSTED WATER SYSTEMS

PRESENTS THE HARTON POD

- Hartons are the original designers and developers of the unique Harton Pod.
- Originally designed for a client who lacked above ground space in their development the Pod was developed by Hartons to provide a solution that was both innovative and space saving, the Pod supply's wholesome water to residential and business premises.
- The Harton Pod requires no planning permission and can be situated below roadways, parking bays and landscaped areas, saving on valuable above ground space.
- The Harton Pod is WRAS approved.
- Hartons work closely with Consultants and Construction companies throughout the U.K.
